HSR Temperature Controller HCC 190 for Cryostats and Cryo Pumps

HSR cryo controller HCC190 allows an operation of either cryo pumps or cryostats which are equipped with a maximum of 3 cold heads within the same system. It includes an additional, special feature which provides a fully automatic control of temperatures for a particular stage of the cooling system (T1 and/or T2). The control accuracy of the system is +/- 1K.

Scientific / Metrology Instruments
Multi-purpose Electron Microscope

F2

Entirely revolutionized TEM

New features of F2 :

- . Improved Cold FEG
- . Advanced EELS
- . Dual SDD EDS
- . Advanced Scan System
- . Smart Design
- . SpecPorter
- . Environmentally Friendly

50 YEARS OF LEAK DETECTION

Experience makes sense!

Pfeiffer Vacuum is the supplier with the widest range of leak detectors on the market. We provide solutions for applications using helium and hydrogen as tracer gas.

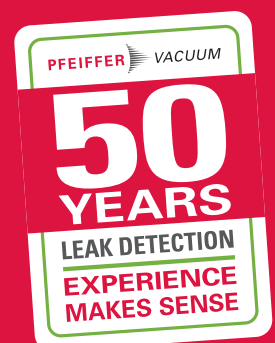

From portable devices to complex leak detection systems – we always offer the optimum solution to detect leakages in many different industrial sectors.

Competence, quality and service from a single source.
